Chardon Township Sewer Project Update

The project is moving forward and here are some updates:

- Surveyors will be out starting the week of April 8, 2019 gathering preliminary data for the design & engineering plans.
- GCDWR continues to collect survey responses from Berkshire Heights residents. The survey period will end April 12, 2019. If you have not completed the survey and returned to our offices please do so. Once the survey window closes GCDWR will compile the data and provide the Chardon Township trustees the results.
- GPD Group's engineering & design proposal has been selected to do the engineering services for this project. Details are being worked out to finalize an engineering agreement between the County and GPD Group.

As more details become available, GCDWR will update the website.
