## Chardon Township Sewer Project Update

On behalf of the Geauga County Board of Commissioners, the Geauga County Department of Water Resources (GCDWR) is currently in the process of requesting an extension deadline of the Ohio EPA Director's Findings & Orders issued in April 2015 that required the installation of a sanitary sewer system and wastewater treatment plant (WWTP) for the Berkshire Heights subdivision of Chardon Township by April of 2020. We are requesting that the deadline be extended to January 31, 2021.

On 2/6/19 GCDWR presented an overview of the current project's status and timeline at the Chardon TWP trustees meeting. GCDWR is planning a public meeting sometime in April or May.

The location for the proposed WWTP has been tentatively identified; it is the northwest corner parcel at the intersection of Auburn and Thwing roads. GCDWR is in the process of obtaining the parcel from the owner.

GCDWR submitted the NPDES permit application on 2/1/19.

GCDWR will submit the updated section 208 plan on 2/15/19.

GCDWR is currently coordinating funding for the design and construction of the sewer lines and WWTP. To date, GCDWR has obtained \$1,000,000 in grant/loan funds from the Ohio Public Works Commission.
