May 8, 2019

## PUBLIC NOTICE

Dear Resident,

The County will be cleaning the sanitary sewer system in your neighborhood. The neighborhood is scheduled for the work: **MAY 13 - MAY 31, 2019, BETWEEN THE HOURS OF 8:00 A.M. AND 4:00 P.M.** A few days before the cleaning is to take place, signs will be posted at the entrance of the development.

The County will conduct cleaning of the mainline sewers and inspecting of manholes of the sanitary sewer system, this work uses a combination Sewer-Jet and Vac-All machine. This machine is mounted on a truck and uses a high pressure stream of water to clean the sewer lines and then the resulting debris is vacuumed from the manholes. This cleaning is required periodically to ensure that the main sewer lines remain clear and free flowing.

Because the plumbing appliances in your home/building are connected to the sanitary sewer system, some of the water **may** splash out of your toilet, floor drains, sinks, basins, showers, or tubs when the cleaning machine passes by your residence. **Please ensure the lid on your toilet is closed when the work is being done in your area.**

**Please note that this work is weather dependent (above 32 degrees) and is subject to equipment availability.**

Thank you in advance for your cooperation during this inspection process. Please feel free to contact our office at (440) 279-1970, or [info@gcdwr.org](mailto:info@gcdwr.org) if you have any questions or need further information concerning the cleaning of sewer lines in your area.

Sincerely,

Steven Oluic PhD  
Director  
Gauga County Department of Water Resources
