Location Information

Unique Service Line ID	Site Name	Street Number	Street Name	City	Zip Code	County	Latitude	Longitude	In Asset Management	Asset Status	Asset Start Date	Asset End Date
A Unique ID by the public water system for each service line.		Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include GPS coordinates, landmark, intersection, block, or other details to specify service line locations.
